About Us

The Meeting Pod Co is an award-winning family-run business that manufactures indoor and outdoor commercial and domestic meeting pods from our production facility on the Isle of Wight in the UK. From our humble beginnings in 2016, The Meeting Pod Co continues its exponential growth, now supplying our pods all over the world.

Mike & Tom are the Founders of The Meeting Pod Co and as well as being co-directors they are also Father & Son in Law.

Our company ethos is built on the following principles:

Remarkable Design

Our in-house design team work to achieve a design that delivers statement pieces in any workplace or outdoor environment combined with a purpose and functionality that makes our products a joy to work from.

Exceptional Quality

Quality is not just physically represented through craftsmanship, finish, materials and durability, it is a state of mind, how it makes the customer feel. For us quality sits alongside consistency, so we are proud of every product that is manufactured by us.

Sustainability

From design, engineering, material sourcing, transportation and support, all aspects of our manufacturing continuously evolve to minimize negative environmental impact. Our 4-person Meeting/Outdoor Pod shell's composite resin has been sourced from a recycled material that is made up of 1800 plastic bottle tops.

Our 'Washed Up' Pledge – Everyday we feel privileged to live, work and build our pods on the Isle of Wight. As part of our commitment to improving the planet and maintaining the beauty of our Island, we have pledged to remove 1 ton of waste found on our island beaches. Members of our team visit local beaches on a regular basis. The waste will be collected, and where possible recycled through our manufacturing facility into a new 'Washed up' range of accessories which accompany our pods.

We are proud to have supplied our pods to some of the world's leading organisations including:

Dealer Benefits

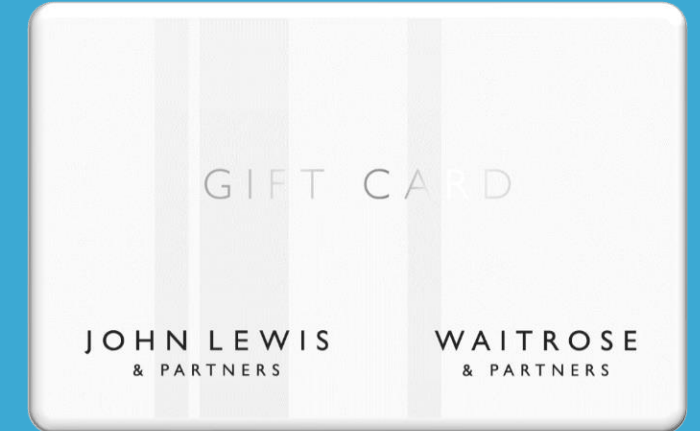

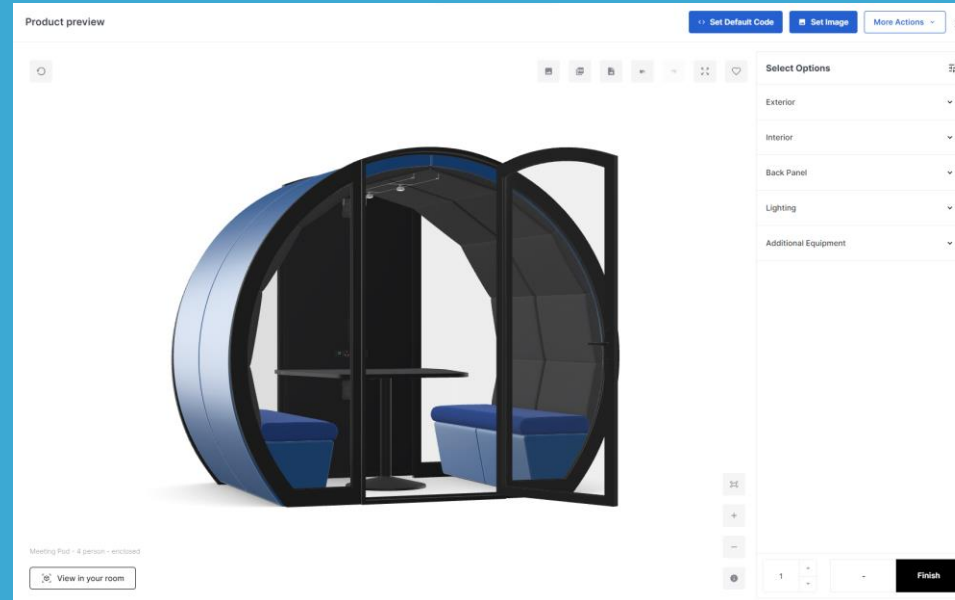

Online pod configurator. We hope that this tool will enable you to produce quotes for clients easier and more efficiently than ever. You will be able to generate pricing and create custom imagery in real time with the added benefit of being able to amend projects accordingly to the clients' specifications. We want this to be your 'go to' sales tool when quoting for a pod so we welcome any feedback you have that you think will improve the experience.

As an added benefit of using our online configurator, if you register a deal through the configurator, you will also receive a further **£150 discount** off the total cost, on top of your standard trade discount that will have already been applied when you receive your individual log in.

We always try to keep any price rises to a minimum, however, with the cost of building materials drastically increasing, it is something we are required to do from time to time. By using our online configurator, any quotes produced and registered with us will have the prices held for 90 days. Meaning **any price rises in that time will not affect your quote!**

We are working closely with the configurator designers to add new benefits to make the process even easier and more efficient. We will keep in touch about any future updates.

For any questions or feedback, please email sales@themeetingpod.co.uk

we want to say...

THANK YOU

A £100 John Lewis Gift Voucher will be emailed to individuals who register a project with The Meeting Pod Co that results in an order.

This 'Thank You' incentive will apply to all orders placed in 2025 and will be sent upon receipt of initial deposit rather than project installation.

*More than 1 project cannot be registered relating to the same client at the same location.

Pod Collections

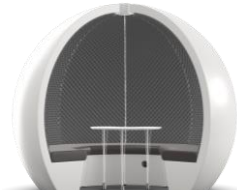

Indoor Pods

Fluid

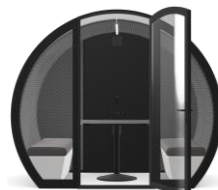

Dynamic, fluid-shaped pods that create a WOW factor in any office or outdoor environment.

Authentic

Linear-shaped products that utilise timber effect slatted panels to create a premium contemporary look and feel.

Phone Booth

Work Booth

Meeting Booth

The Shack

Edge

Shipping container-themed indoor and outdoor products delivering a gritty industrial edge to the workplace.

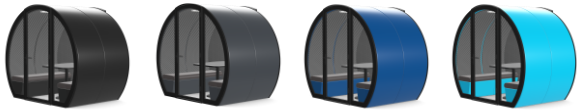

Container Booth

Container Shack

In addition to our standard pod range, we can adapt our products through a range of materials, fabrics, colours and graphics to deliver pods that are customised for our clients' needs.

- External shells can be made in any RAL colour

- Internal fabrics can be changed to any from the Camira range

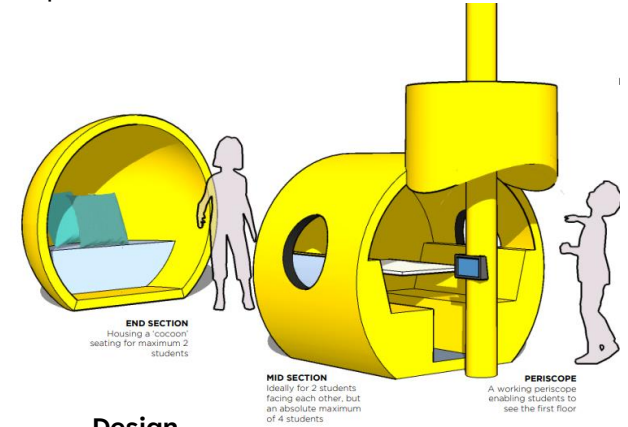

- Acoustic foam interiors can be sprayed in any RAL colour

- Custom graphics (company logos, slogans, patterns etc) can be added to the exterior

Alternatively, our in-house craftsmen, engineering and design teams can create a completely bespoke indoor or outdoor installation to meet your specific and unique requirements.

Design

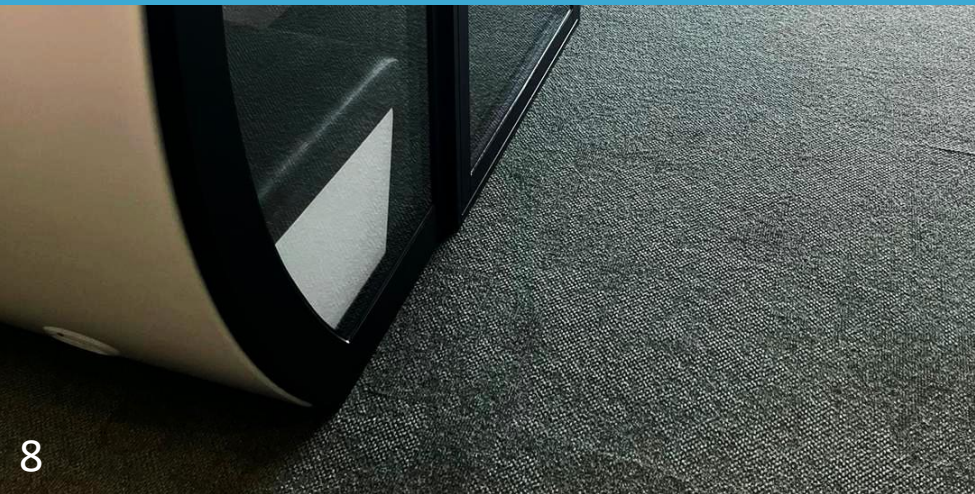

To installation

Indoor Pods: The Meeting Pod

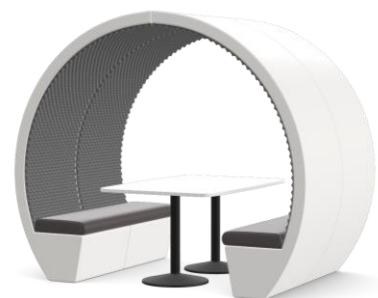

With its stunning circular design, modular capability and a full range of accessories and custom options, our meeting pods can deliver a collaborative working environment in any space. We offer a range of open/part or fully enclosed configurations in sizes from 2 to 8 persons which offer exceptional acoustic properties.

Indoor Pods: The Meeting Pod

Key Pod Features!

Solar power – We have created a unique curved solar panel which fits seamlessly to the exterior of our outdoor pods. This power option allows the pods to be placed anywhere outside and still enable users to charge laptops and other 12V mobile devices.

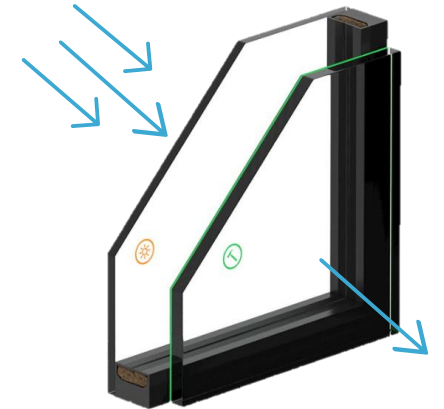

OE Electrics – A stylish power unit with a near flush profile which integrates seamlessly into the pod's central core. It offers a combination of AC power, USB and USB-C charging.

Air extraction – We use a silent double motor extraction fan system, which circulates fresh air into our pods, while expelling old air out. This feature enables our pods to be used as a fulltime office/meeting space.

PIR sensor – Motion activated infrared lighting system with extraction fan control panel.

Double Glazing – Our fully enclosed indoor and outdoor pods boast a double-glazed door and front enclosure incorporating a laminated interior pane to maximise acoustic properties, strength and durability.

Additional Information

Warranty

A 5 year warranty is supplied on the structure of our products covering normal use for the purposes of meetings. In addition, the benefit of any manufacturer's warranty given by a third party supplier of goods will be assigned to the buyer. No liability will be accepted for any defect arising from fair wear and tear, wilful damage, negligence, misuse, alterations or repairs without the seller's approval in writing.

Acoustics

Designed and manufactured by us with acoustics at the forefront of consideration. We have integrated premium materials to maximise our pods acoustic properties, with independent laboratory testing to BS ISO 23351-1:2020 standards to ensure the highest levels of performance.

Installation

For all UK orders, our own engineering team will deliver and install your products.

- Requirements for installations are;
- Local parking
 - Access information to installation site
 - Completion of pre-installation questionnaire
 - Confirmation if site induction required

Worldwide Delivery

Our products can be shipped worldwide.

We do not install outside of the UK. Self assembly will be required; however, we will provide a fully comprehensive installation guide along with helpful 'how to' videos to assist with the build of each product.

Case Study: Candle House, Granary Wharf

Candle House is a prestigious and iconic residential apartment block located on the Granary Wharf Estate in the heart of Leeds city centre on the Leeds and Liverpool Canal.

Neil Walker, Director & Project Lead commented;

“Having looked at various options for seating and pod units for our residents to use during our major Roof Garden refurbishment planning The Meeting Pod Co clearly stood out as a high-end manufacturer, with a product that would fit well with the overall aesthetic that we wanted to achieve. From initial contact to the installation on site, the process could have not been any more professional and efficient. The Roof Garden pods have been very well received by our residents and they are now a go-to destination for residents to work from during the day and to relax and socialise on an evening”.

Case Study: International School Of Monaco

This bespoke project was developed to meet the school's requirements, aligning with their goals of fostering creativity, collaboration, and comfort. Alongside the yellow submarine pod, The Meeting Pod Co installed a variety of additional pods tailored to meet the diverse needs of students and staff. Each pod combines structural quality with style, creating spaces that are not only functional but also inspiring for educators and learners alike.

In a proud moment for both The Meeting Pod Co and the school community, Prince Albert II of Monaco visited the International School of Monaco to view the new installations and happily climbed inside the submarine to understand this new experience.

His visit underscored the importance of the project within Monaco, highlighting the school's commitment to providing innovative educational experiences. Prince Albert's presence was a testament to the impact of thoughtful design in creating engaging learning spaces, further enhancing the excitement surrounding the installation.

Dale Jephson, Head of Facilities for the school commented, "This installation exceeds all expectations, they look wonderful. Everyone who sees it marvels at what has been delivered, for Monaco that is saying something."

"We are incredibly honoured" said Mike Dalloz Managing Director for The Meeting Pod Co "Creating spaces that fuel young imaginations while meeting the unique needs of an educational environment has been a rewarding experience."

The Meeting Pod Company is proud to support educational institutions globally with customised, state-of-the-art pods that redefine what learning spaces can be.

Case Study: ITG

ITG have recently completed a total office transformation. They were looking to finish off their office revamp with the additional of 3 dynamic collaboration spaces, and our Escape Pods were the stand out pieces of furniture they'd been looking for. With employees returning to the workplace the pods have been hugely successful, enabling the team to increase the number of meetings and interactions, along with doubling up as breakout space and looking great!

Simon Ward, Managing Director, at ITG commented:

"The pods have hugely surpassed our expectation and have empowered staff members to interact in dynamic spaces around our office. The response has been brilliant, with the team booking the pods out constantly! It was great working with The Meeting Pod Co, they understood the brief and delivered the pods on time and in a seamless manner."

Terms & Conditions (UK orders)

- Definitions:** “Buyer” - means the person, firm, company or corporation purchasing the Goods and Services.
“Conditions” - means the standard Terms and Conditions of sale set out in this document.
“Goods” - means the Goods or Services which the Seller is to supply to the Buyer in accordance with these Conditions.
“Seller” - means The Meeting Pod Company Limited.
“Writing” - means any form of written communication including, but not limited to, telex, cable, facsimile transmission and all forms of electronic communication.
“Installation” - means the requirement in addition to delivery for the Goods to be assembled and installed at the Buyer’s premises.
- Orders:** All orders are accepted by the Seller in accordance with these Conditions. No other terms shall apply unless agreed in writing.
- Payment:** For Goods requiring delivery or collection, 100% payment is required from the Buyer upon ordering. For Goods requiring installation, 50% payment is required from the Buyer upon ordering and the balance is required 7 days after installation. All prices quoted are subject to V.A.T. at the prevailing rate.
- Ownership of goods:** The Goods remain the ownership of the Seller until full payment has been received from the Buyer and in the absence of payment may at any time be recovered by entering the Buyers’ premises for this purpose.
- Warranty policy:** A five-year warranty is supplied on the structure of the pods covering normal use for the purposes of meetings. In addition the benefit of any manufacturer’s warranty given by a third party supplier of Goods will be assigned to the Buyer. No liability will be accepted for any defect arising from fair wear and tear, wilful damage, negligence, misuse, alteration or repair without the Seller’s approval in writing.
- Delivery & installation:** Delivery and installation prices are to UK mainland delivery addresses and are based upon reasonable access to the delivery location. Assembly and installation will be undertaken at the Buyer’s premises. The Buyer will have prepared the site ready for delivery/installation and supply close access parking facilities, light and power and grant rights to the installers to fix the meeting pods to ground, floors and walls as required. Any dates quoted for delivery are approximate and the Seller will not be held liable for any delays that may occur.
- Claims:** The Buyer must inform the Seller within 48 hours of any incomplete order delivery, any damaged Goods or any defects due to a faulty installation. The property risk in respect of the Goods will pass to the Buyer on delivery. Except in respect of the death or personal injury caused by the Seller’s negligence, the Seller shall not be liable to the Buyer except as expressly provided in these conditions.
- Accuracy of Information:** Every care is taken to ensure that the information contained on the website, any marketing material or supplied to the Buyer is correct. If an order is identified with incorrect content, the Seller reserves the right to cancel the order and refund any monies paid. The Seller reserves the right to make any changes to the specification of Goods which do not materially affect their quality or performance.
- Use of data:** By placing an order with the Seller, the Buyer agrees to being contacted via email or telephone with future offers and information, unless formally opting out by request.
