

# Meeting Booth

Sleek. Smart. Silent.

# Collaboration, Perfected For A Modern Workspace.

In fast-paced, collaborative environments, the Meeting Booth creates space to think together. Whether it's a quick catch-up, a creative brainstorm or a client presentation, it's a place where ideas can flow without distraction.

Built with premium materials and finished with beautifully detailed upholstery, each booth brings structure, style, and acoustic comfort to your workspace.

Smart design, made for connection.

# A Perfect Fit, Every Time.

Our Meeting Booth comes in **2, 4, and 6 person configurations** to suit every style of collaboration.

The 2-person booth is ideal for one-to-ones and video calls, offering privacy in a compact footprint. The 4-person option is perfect for small team meetings and creative sessions, while the 6-person booth provides space for larger group discussions or client meetings.

All configurations can be customised with lighting, power, tech packs and fabric finishes to fit your workspace perfectly.

# Stay Connected. Stay Powered.

The Meeting Booth comes equipped with the OE Electrics Powerunit, delivering dependable, high-performance connectivity as standard. Each booth includes **two UK 3-pin sockets, two USB ports, and two USB-C ports**, ensuring effortless charging for all modern devices, whether you're collaborating, presenting, or working privately.

Crafted with the same attention to quality that defines our Authentic Collection, the Powerunit is backed by OE Electrics' 10-year warranty, offering long-term confidence and exceptional durability. It's power you can trust, built into a workspace designed to empower every moment inside.

**Maximum usage - 1,200 watt**

# A Brighter Way To Work.

The Meeting Booth is illuminated by **two recessed LED strip lights**, seamlessly integrated into the ceiling for a clean, architectural finish. Activated by a discreet PIR sensor, the lighting responds instantly to occupancy, creating a welcoming, energy-efficient glow the moment you step inside.

Balanced, comfortable, and crafted to enhance focus, our lighting design elevates the premium interior of the Authentic Collection while ensuring a consistently bright and inviting workspace.

Colour temperature **4000K**

# Sit Better. Work Better.

The Meeting Booth features our **new bench-style seating** system designed to elevate comfort, longevity, and visual cohesion. The integrated backrest is built directly into the wall panel, creating a seamless architectural finish that enhances the booth's premium interior aesthetic.

Upholstered in high-performance task fabric, the seating is crafted to withstand the demands of daily use, offering exceptional durability and reduced wear and tear. The result is a refined, resilient seating solution that supports productive meetings and focused work.

# Custom Comfort. Island Inspired.

The Meeting Booth offers **three carefully curated fabric colour options as standard**, each inspired by natural elements and materials that can be found on the Isle of Wight. These colours bring a subtle connection to our maritime surroundings, blending place, heritage, and design into every booth.

Both the seating and the ceiling are upholstered in Gabriel Cura, a high-performance task fabric engineered for heavy, everyday use. Known for its durability, refined texture, and long-lasting appearance, Cura ensures the Meeting Booth remains as resilient as it is beautiful.

**Island Sand**  
*Gabriel Cura 61233*

# Fresh Air That Fuels Focus.

Our **dual-fan ventilation system** activates automatically via a PIR sensor, ensuring a continuous flow of clean, fresh air without disrupting the booth's quiet environment.

One fan draws in fresh air from outside, while the other expels used air, maintaining optimal air quality and comfort.

Each fan is equipped with a high-efficiency HEPA filter to capture airborne particles, helping to create a healthier, more breathable workspace. Thoughtfully engineered for quiet performance, this system keeps the air fresh so users stay focused.

 **184 air changes per hour**

# Beautifully Built, Brilliantly Silent.

The Meeting Booth contains a meticulously **engineered acoustic system** designed to deliver a calm, focused environment. Each internal wall features a layered construction of solid panels, high-performance acoustic foam, and fabric with sound-enhancing properties, all working together to reduce noise and elevate comfort.

A magnetic door seal ensures a tight closure, while the double-glazed glass front and rubber gasket floor seal further enhance sound control, minimising external disruptions. The result is a premium acoustic experience that supports conversation, concentration, and creativity.

A close-up photograph of various interior design materials laid out on a light-colored wooden surface. In the foreground, there are several rectangular samples of textured fabric or carpet in shades of grey and beige. Behind them, a stack of color swatches and a fan of color cards are visible. To the right, a portion of a dark-colored laptop is seen. The overall scene suggests a professional design consultation or a material selection process.

**Designed By Us.  
Finished By You.**

# Nature Meets Design.

Add a touch of sophistication and style to your Work Booth with our **real oak veneer slatted panels**, available in **natural or black finishes**.

Designed to impress, these panels not only elevate the Work Booth's exterior with a modern, architectural flair but also contribute to improved acoustic performance.

It's the perfect blend of form and function. An easy upgrade that makes a lasting impression.

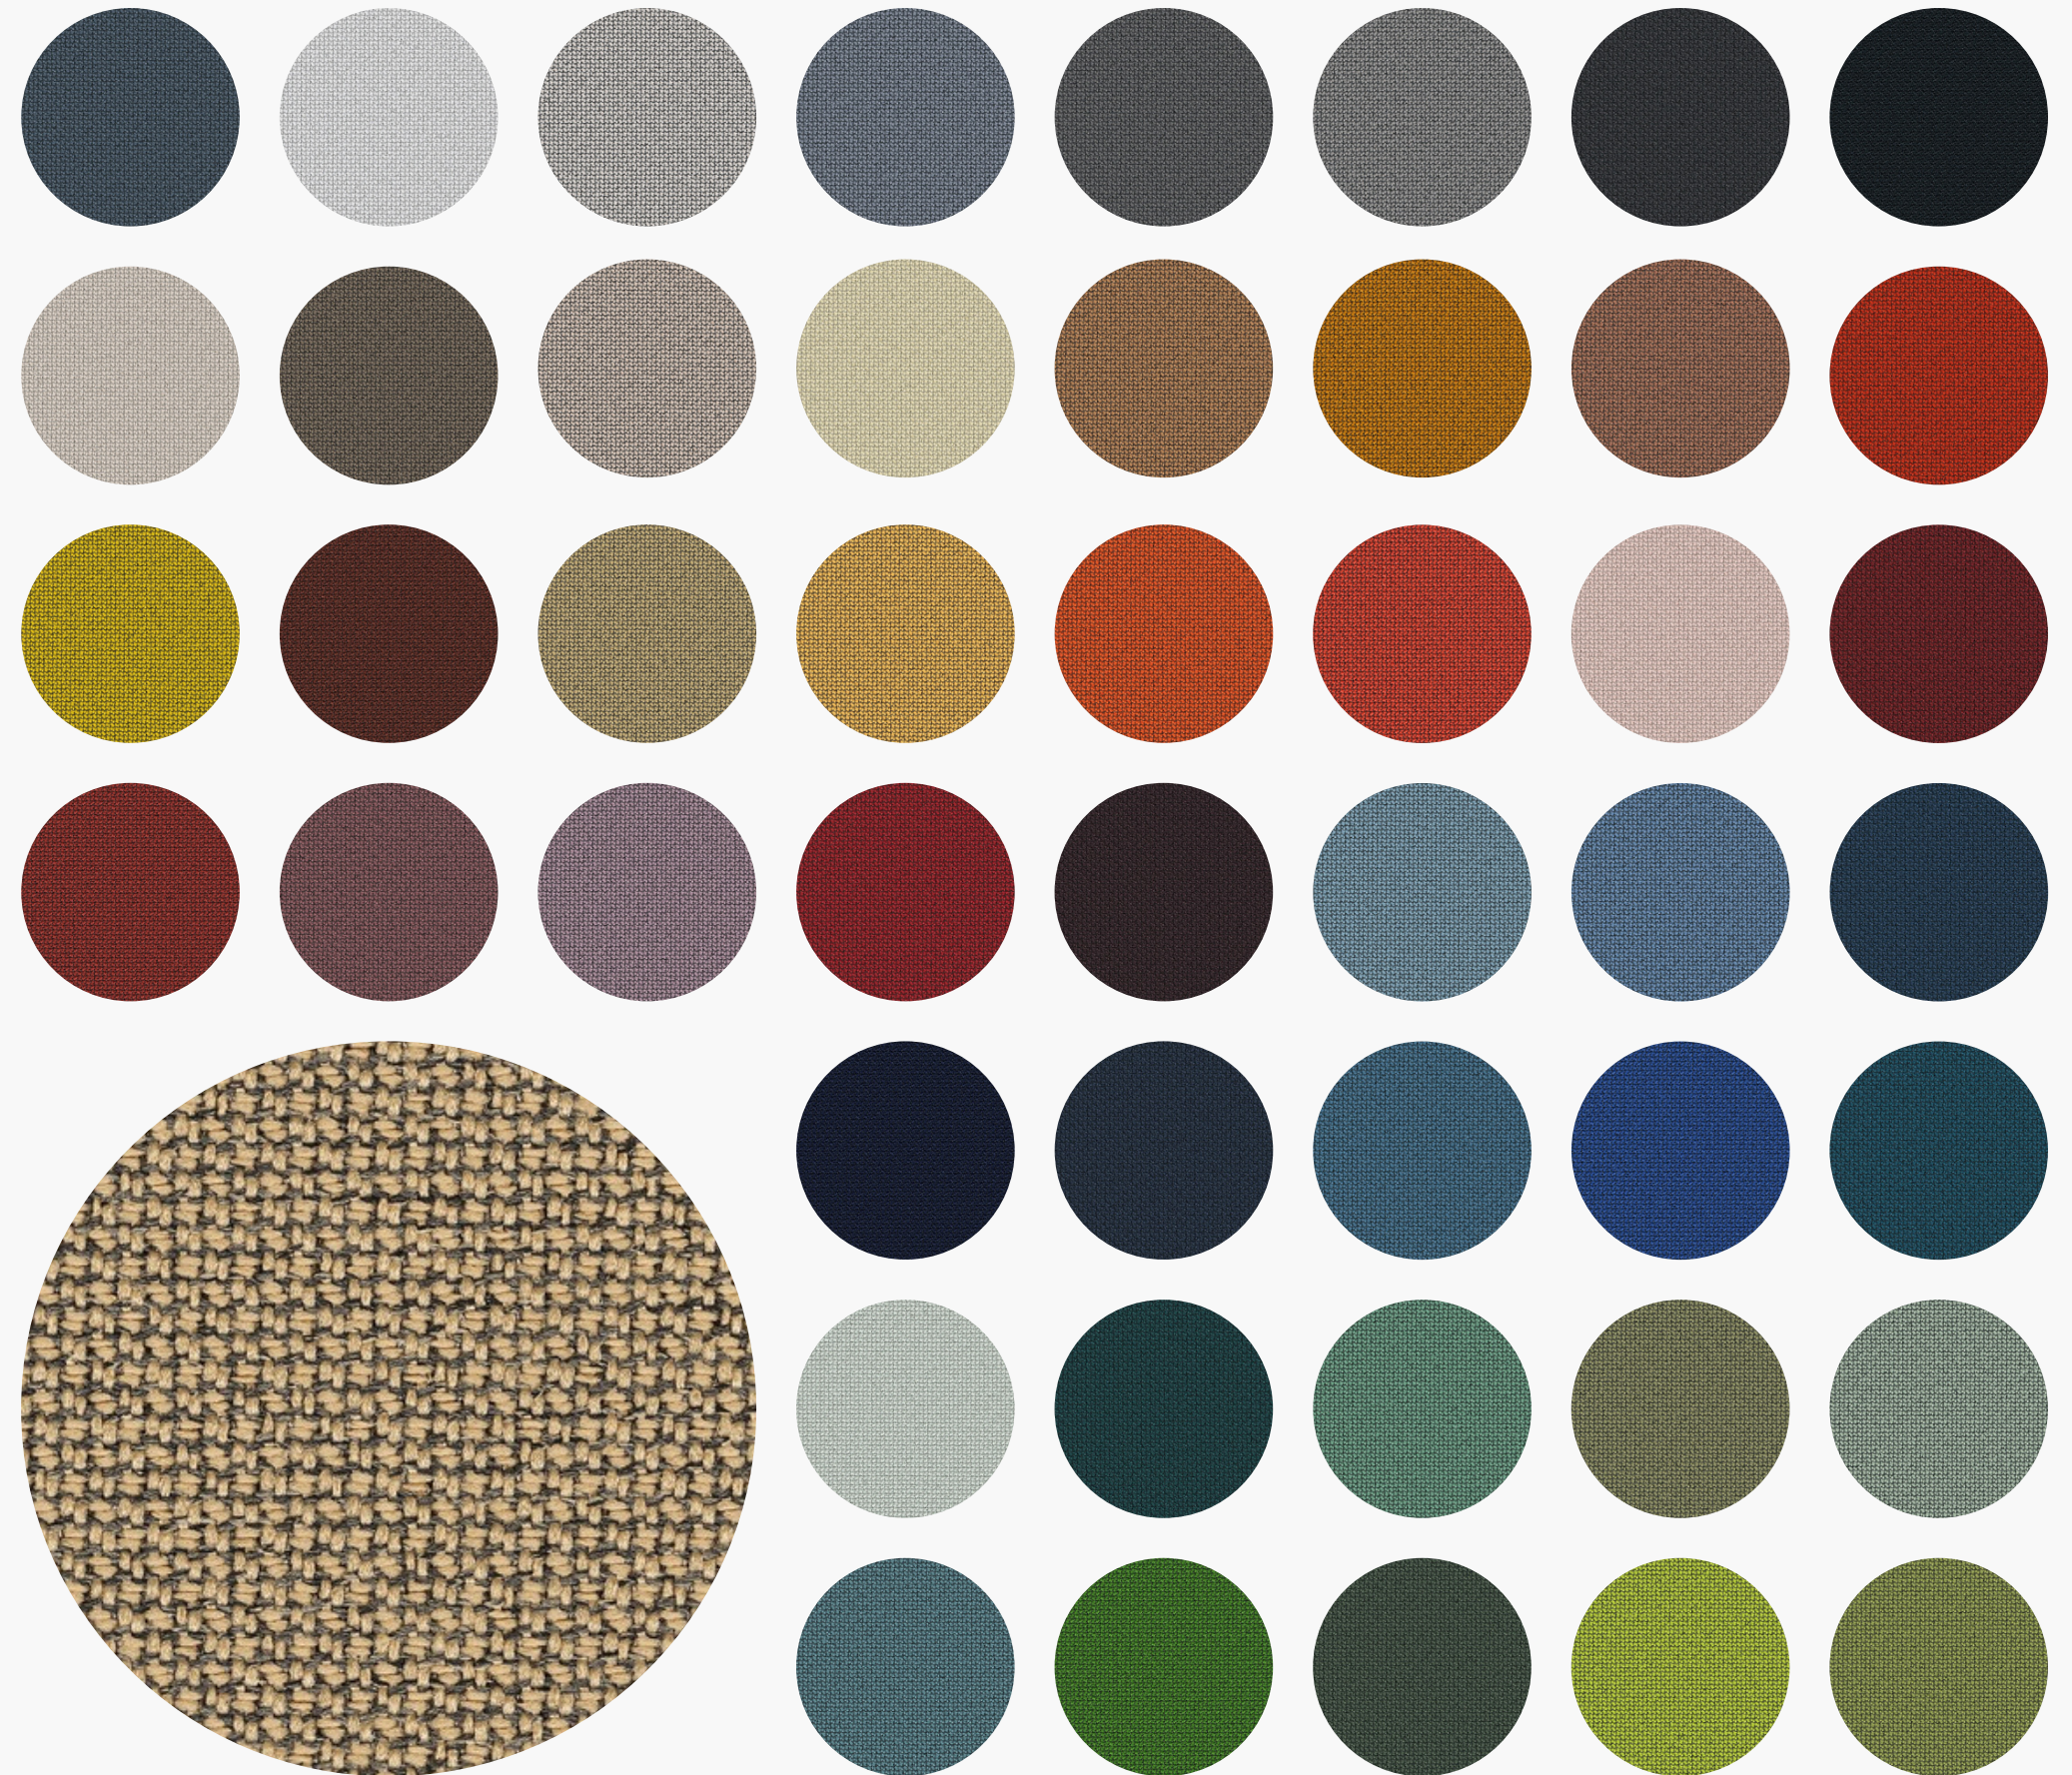

# Your Space. Your Style.

Add a bold personal touch to your Meeting Booth with high-quality upholstered fabric panels from the Gabriel 'Cura' range. Available for both interior and exterior applications, this **customisation option** lets you introduce colour, texture, and personality to your workspace.

With **50 colour options** to choose from, you're sure to find the perfect match to reflect your brand identity or complement your office aesthetic. A simple upgrade that speaks volumes.

Made from 100% post-consumer recycled polyester. It fuses modern performance with a warm, casual aesthetics and a soft, voluminous touch. The fabric's matt, slightly heathered and natural-looking texture imitates the aesthetics of natural fibres, adding feel-good factor and a touch of classic luxury to any type of furniture.

# Power. Connectivity. Capability.

For teams that need more from their workspace, the **Tech Pack** elevates the Container Booth into a fully equipped collaboration hub. This upgrade includes a **screen hanging bracket** suitable for displays from 23" to 42", allowing for presentations, video calls, and shared digital work with ease.

To support seamless connectivity, the Tech Pack adds an **additional power socket** at screen height, along with a **Cat 6 ethernet port** and **HDMI interface**. Ensuring reliable performance for both wired and wireless setups.

Designed to integrate discreetly within the booth's architecture, the Tech Pack enhances functionality without compromising the refined aesthetic of the booth. It's intelligent technology, beautifully built in.

# Transparency Meets Tranquillity.

Enhance the sense of light and openness in your workspace by upgrading your Meeting Booth with a sleek **double-glazed glass back panel**.

This stylish feature allows natural light to flow through, creating a more open and inviting environment without compromising privacy or acoustic performance.

Ideal for modern offices looking to maintain visual continuity while adding a touch of architectural elegance. It's a simple upgrade that makes a big impact.

# Limit Distraction. Enhance Privacy.

Enhance both privacy and design with our optional **glass manifestation**. Available as a full or half-height application on the glass door & rear glass panel (if applicable), this subtle yet effective detail provides visual privacy while maintaining a sleek, modern aesthetic.

Whether used for branding, wayfinding, or simply adding a refined touch, the manifestation transforms your Meeting Booth into a more tailored, professional space without compromising light or openness.
