# About Us

The Meeting Pod Co is an award-winning family-run business, producing indoor and outdoor commercial and domestic meeting pods. A certified 'Made In Britain' manufacturer, all of our products are handmade to order from our production facility on the Isle of Wight. From our humble beginnings in 2016, The Meeting Pod Co continues its exponential growth, now supplying our pods all over the world.

## Remarkable Design

Our in-house design team work to achieve a design that delivers statement pieces in any workplace or outdoor environment combined with a purpose and functionality that makes our products a joy to work from.

## Exceptional Quality

Quality is not just physically represented through craftsmanship, finish, materials and durability, it is a state of mind, how it makes the customer feel. For us quality sits alongside consistency, so we are proud of every product that is manufactured by us.

## Sustainable

From design, engineering, material sourcing, transportation and support, all aspects of our manufacturing continuously evolve to minimize negative environmental impact. Our 4-person Meeting/Outdoor Pod shell's composite resin has been sourced from a recycled material that is made up of 1800 plastic bottle tops.

## Our 'Washed Up' Pledge

Everyday we feel privileged to live, work and build our pods on the Isle of Wight. As part of our commitment to improving the planet and maintaining the beauty of our Island, we have pledged to remove 1 ton of waste found on our island beaches. Members of our team visit local beaches on a regular basis. The waste will be collected, and where possible recycled through our manufacturing facility into a new 'Washed up' range of accessories which accompany our pods.

Born on the Isle of Wight.  
Supplied to the world.

Don't just take our word for it

We also offer

# Custom & Bespoke

## Custom

We understand that people like individuality; that's why we offer the ability to add your own style and flair to our original products.

From exterior colour changes with any RAL colour and fabrics from Gabriel to custom graphics and logos, the possibilities are endless!

## Bespoke

Our new design services enable you to create a product completely tailored to your style and requirements for today's dynamic working environments.

As we design and manufacture all of our products from our facility on the Isle of Wight, we are able to offer this service at a cost-effective rate as we don't require the assistance of external designers and foreign manufacturing.

Our in-house sales and design team will work closely with you to ensure that your needs are met and exceeded!

Product

# Delivery & Installation

**UK mainland delivery & installation (first pod) - £1,200.00**

**Additional pod(s) installed at same location and time - £200.00**

All of our products are delivered in parts by our own team of skilled engineers. Each product part has been designed to fit through a standard-sized doorway to minimise constraints on building access.

A pre-installation questionnaire will be required to be completed and sent back to us upon ordering to ensure that we have all the relevant information to provide a smooth and seamless installation.

UK Mainland delivery and installation for 1 pod is charged at a set fee. Any additional pods included on the same order that are to be delivered and installed at the same time will incur an additional cost.

## Product

# Highlights

A 5 year warranty is supplied on the structure of our products covering normal use for the purposes of meetings. In addition, the benefit of any manufacturer's warranty given by a third party supplier of goods will be assigned to the buyer. No liability will be accepted for any defect arising from fair wear and tear, wilful damage, negligence, misuse, alterations or repairs without the seller's approval in writing.

Designed and manufactured by us with acoustics at the forefront of consideration. We have integrated premium materials to maximise our pods acoustic properties, with independent laboratory testing to BS ISO 23351-1:2020 standards to ensure the highest levels of performance.

For all UK orders, our own engineering team will deliver and install your products.

Requirements for installations are;

- Local parking
- Access information to installation site
- Completion of pre-installation questionnaire
- Confirmation if site induction required

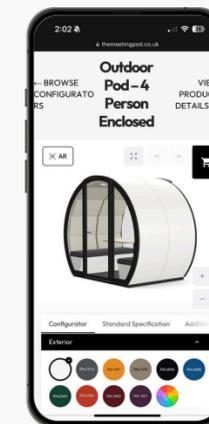

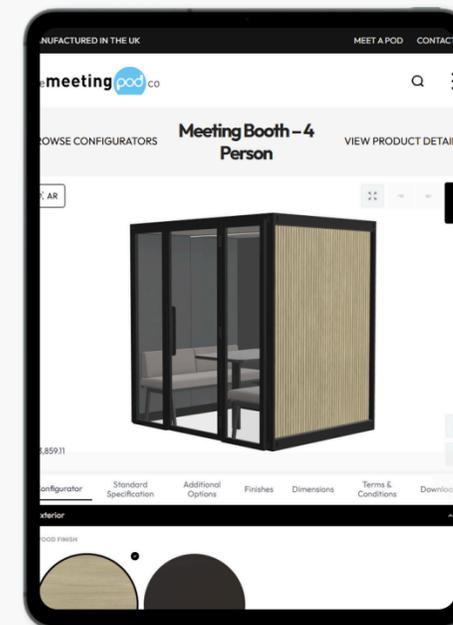

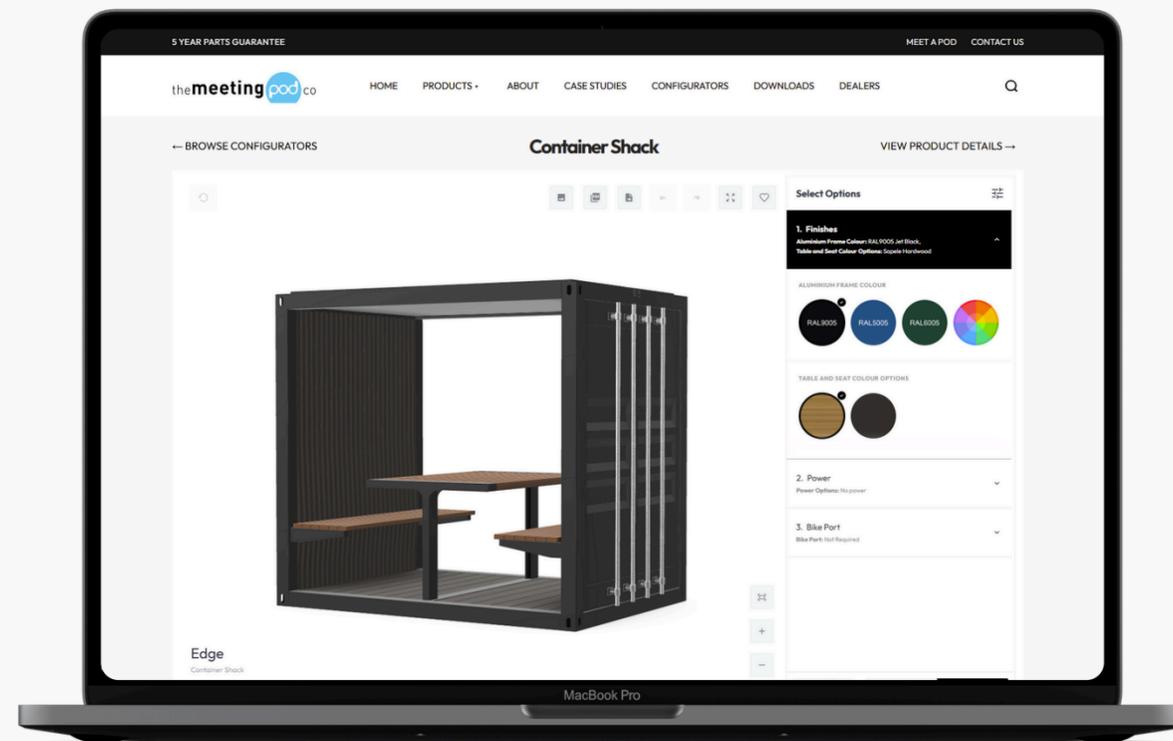

Our products can be shipped worldwide.

We do not install outside of the UK. Self assembly will be required; however, we will provide a fully comprehensive installation guide to assist with the build of each product.

# Any Time. Any Place.

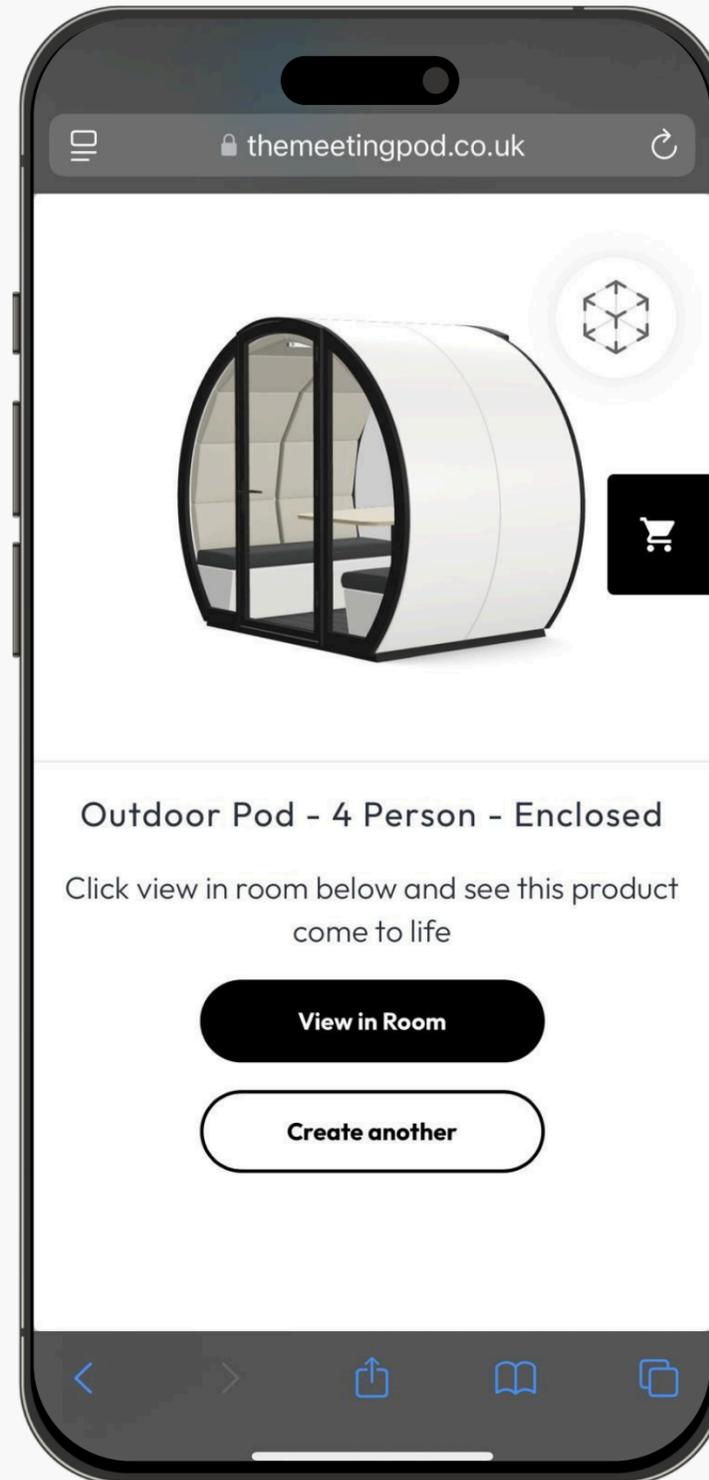

Our configurators are available across multiple platforms. Meaning you can build and customise a product at any time.

## AR on mobile devices

### Try before you buy

The AR function available on mobile devices through our configurators is a fantastic tool to be able to visualise our pods in your space before you buy.

- 01** Design and customise pods to perfectly suit your needs, creating tailored solutions that stand out.
- 02** Easily place products in any space to visualise how they fit and enhance the environment.
- 03** Capture screenshot images to refer back too at a later date

## Reseller

# Benefits

You can now register quotes, generate pricing and create custom imagery in real time by using our online pod configurators. Enabling you to produce quotes for clients easier and more efficiently than ever! We want this to be your 'go to' sales tool when quoting for a pod so we welcome any feedback you have that you think will improve the experience.

As an added benefit of using our online configurator, if you register a deal through the configurator, you will also receive a further **£150 discount** off the total cost, on top of your standard trade discount that will have already been applied when you receive your individual log in.

We always try to keep any price rises to a minimum, however, with the cost of building materials drastically increasing, it is something we are required to do from time to time. By using our online configurator, any quotes produced and registered with us will have the prices held for 90 days. Meaning **any price rises in that time will not affect your quote!**

We are working closely with the configurator designers to add new benefits to make the process even easier and more efficient. We will keep in touch about any future updates.

For any questions or feedback, please email [sales@themeetingpod.co.uk](mailto:sales@themeetingpod.co.uk)

## Case study

# Birmingham Newman University

### Location:

Birmingham, UK

### Year:

2025

### Project Details

Birmingham Newman University transformed their outdoor space in 2025 with the addition of six of our outdoor pods in a variety of configurations, creating functional, stylish, and accessible outdoor working zones for students and staff. The project, delivered in partnership with My Office Pod, included two 2-person part-enclosed pods, three 4-person open ring pods, and one 4-person fully enclosed pod. This blend of configurations allows for a variety of uses from quiet study and group collaboration to relaxed outdoor meetings.

As with all our outdoor models, these pods are designed with durability and sustainability in mind. Built using recycled composite fibreglass they are weather resistant, low-maintenance and made to last.

This installation offers a great example of how universities can maximise underused outdoor areas, creating welcoming and practical environments that enhance campus life.

## Case study

# International School of Monaco

### Location:

Monaco, France

### Year:

2025

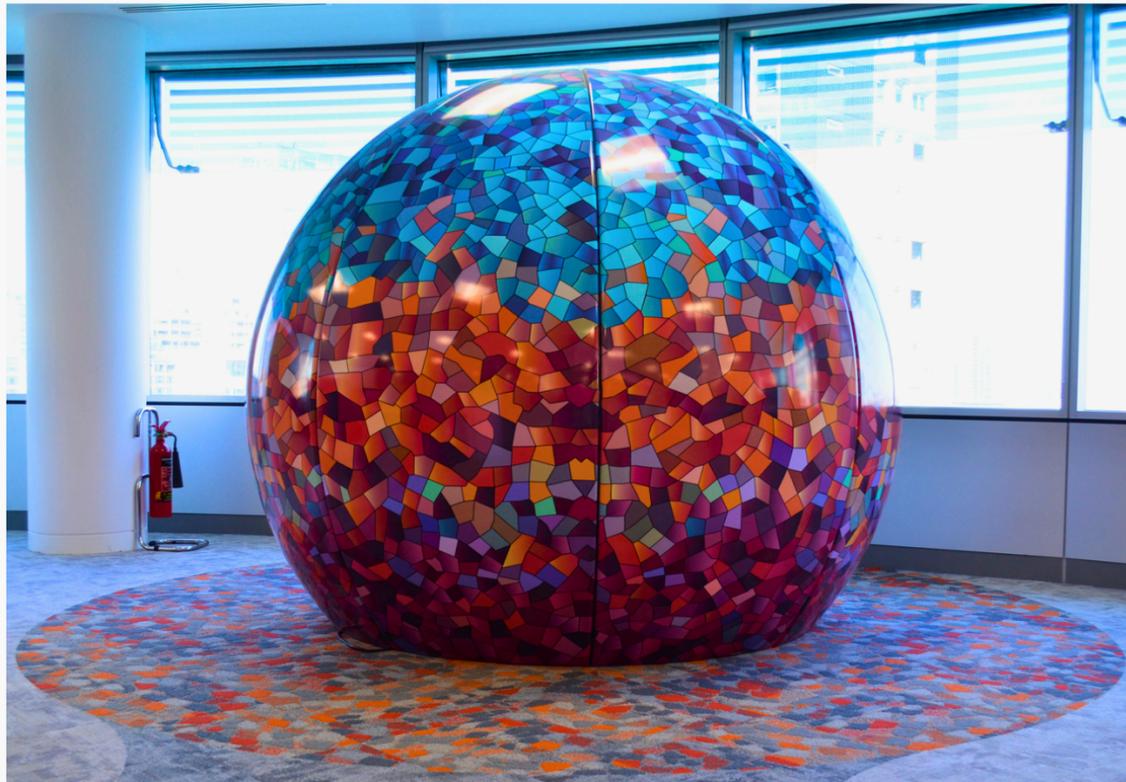

### Project Details

The International School of Monaco is one of the most prestigious private schools in the world and is part of the top 150 schools internationally. We had the pleasure of working with them as part of the re-model of their beautiful school which completed in readiness for the 2024-2025 academic year.

Along with 5 of our indoor Meeting Pods which they had customised, our sales and design team worked closely with the school to create a bespoke Submarine pod for there younger students. With design ideas taken from a real submarine along with a working 2 story periscope, this really was a show stopping product.

Dale Jephson, Head of Facilities commented;

*"I said to the boys this installation exceeds all expectations, they look wonderful. Everyone who sees it is marvels at what you have delivered, for Monaco, that is saying something."*

## Case study

# Tokio Marine

### Location:

London, UK

### Year:

2025

### Project Details

At The Meeting Pod Company, we're all about creating spaces that elevate the way people work—combining comfort, functionality, and standout design. So when we were approached to collaborate on Tokio Marine HCC International's new London office, we were excited to help bring a bold vision to life.

The design team over at [Mobius At Work](#) envisioned custom meeting pods, drawing inspiration from the company's regional offices.

Based on Houston's iconic role in space exploration. One area was inspired by the form and feel of streamlined rockets. Working closely together, we transformed that concept into reality—delivering two bespoke pods that anchor a relaxed, celestial-themed zone beneath a starry sky installation.

The other took inspiration from Barcelona's Voronoi diagram which has connections to the city's history, particularly in its urban planning and architectural designs resembling complex mosaic patterns. This turned our 6 person Escape Pod into a modern day masterpiece.

These acoustically secure pods offer the ideal balance of privacy and collaboration. Whether it's a focused one-on-one or a team huddle, they're built to support seamless, high-performance meetings.

## Products sold within the UK

# Terms & Conditions

**Definitions:** “Buyer” - means the person, firm, company or corporation purchasing the Goods and Services.

“Conditions” - means the standard Terms and Conditions of sale set out in this document.

“Goods” - means the Goods or Services which the Seller is to supply to the Buyer in accordance with these Conditions.

“Seller” - means The Meeting Pod Company Limited.

“Writing” - means any form of written communication including, but not limited to, telex, cable, facsimile transmission and all forms of electronic communication.

“Installation” - means the requirement in addition to delivery for the Goods to be assembled and installed at the Buyer’s premises.

**Orders:** All orders are accepted by the Seller in accordance with these Conditions. No other terms shall apply unless agreed in writing.

**Payment:** For Goods requiring delivery or collection, 100% payment is required from the Buyer upon ordering. For Goods requiring installation, 50% payment is required from the Buyer upon ordering and the balance is required 7 days after installation. All prices quoted are subject to V.A.T. at the prevailing rate.

**Ownership of goods:** The Goods remain the ownership of the Seller until full payment has been received from the Buyer and in the absence of payment may at any time be recovered by entering the Buyers’ premises for this purpose.

**Warranty:** A five-year warranty is supplied on the structure of the pods covering normal use for the purposes of meetings. In addition the benefit of any manufacturer’s warranty given by a third party supplier of Goods will be assigned to the Buyer. No liability will be accepted for any defect arising from fair wear and tear, wilful damage, negligence, misuse, alteration or repair without the Seller’s approval in writing.

**Delivery & installation:** Prices are to UK mainland delivery addresses and are based upon reasonable access to the delivery location. Assembly and installation will be undertaken at the Buyer’s premises. The Buyer will have prepared the site ready for delivery/installation and supply close access parking facilities, light and power and grant rights to the installers to fix the meeting pods to ground, floors and walls as required. Any dates quoted for delivery are approximate and the Seller will not be held liable for any delays that may occur.

**Claims:** The Buyer must inform the Seller within 48 hours of any incomplete order delivery, any damaged Goods or any defects due to a faulty installation. The property risk in respect of the Goods will pass to the Buyer on delivery. Except in respect of the death or personal injury caused by the Seller’s negligence, the Seller shall not be liable to the Buyer except as expressly provided in these conditions.

**Accuracy of information:** Every care is taken to ensure that the information within the Pro Forma invoice is correct. The Buyer is given 48 hours before manufacturing begins on the order to confirm that all details of Goods are correct. If no corrections are made, the Buyer accepts that they will receive what Goods are detailed within the Pro Forma invoice.

**Use of data:** By placing an order with the Seller, the Buyer agrees to being contacted via email or telephone with future offers and information, unless formally opting out by request.
